

# PERMACULTURE Design Certification Course

An eight-day training intensive lead by  
Bill Wilson and Becky Wilson, founders of  
**MIDWEST PERMACULTURE**

## *Course Includes:*

Home Study • Pre-training Webinars • Class Instruction •  
Hands-on Experiences • Design Exercises •  
All Meals • Affordable Lodging

## *About the Training:*

Grounded in ethics and principles, Permaculture Design applies the science and physics of appropriate technology to create systems that are incredibly abundant and highly self-supporting while caring for the planet and humans. This is done by simply observing the patterns found in nature and designing livable systems that mimic life itself. It is not difficult.

## *Topics Include:*

Highly Productive Gardens • Earth Built Homes that Last 500  
Years • Water Harvesting Techniques • Abundant Energy  
Sources • Repair of Damaged Lands • Productive  
Landscapes • Tool Sharing • Aquaponics •  
Animals • Right Livelihood • Simple/Abundant  
Living • Authentic Community •  
And Much More...

*Date:*  
January 26 – February 2, 2013

*Location:*  
Midwest Permaculture  
Stelle, Illinois

*Information & on-line Registration:*
